

+ A NEW FENCE WILL GRAY WITHIN 6 MONTHS!

Staining is the best line of defense in keeping your fence healthy and looking great for years to come! Not Only does stain make your yard look complete but in some cases can triple the life span of your fence. Ask us how we can make your fence last longer and look better than ever for a fraction of the cost to replace it.

(FACT) GRAY IS NOT A COLOR, IT'S A SIGN OF DETERIATION.

(Protect your Investment with Stain)

Cedar Fence Before our Treatment

This is a perfect example of a 1 to 3 year old fence. If there is gray present in the fence it is imperative that we clean the fence before staining to ensure proper color and penetration of the oil into the wood.

What sets us apart from other fence cleaning companies?

We DO NOT Pressure wash. Pressure washing is harmful to the fence and only pushes the mold and mildew and injects water into the fence. Our process uses only 40 psi while killing the mold and mildew. Our process does not harm the fence or plants leaving your fence clean like a new canvas ready for stain.

Cedar Fence After our Treatment

In case you didn't realize it, this is the same fence as above without the nasty gray. The entire process from clean to stain takes a total of 2 days and occasionally 1 day depending on your fence. Now that this fence is protected from the elements all that is left is for the homeowner to enjoy its beauty for years to come.

What sets us apart from other fence Staining companies?

Product, Service, Expertise! Our stain is the best on the market. We use a commercial grade stain with an unbeatable 3 YR warranty against fading. Our installers are highly trained and are the best at what they do. After all, this is all we do!

A Beautiful Pool with a Not So beautiful fence.

LOOK FAMILIAR?

Many of us spend thousands of dollars on our quest to beautify our home from the inside out while neglecting to understand the impact a beautiful fence can make on the appearance of our home and yard. Not to mention, the money we will save over the years from not having to replace the fence by simply taking the necessary steps to protect and preserve the fence today.

Our stain has fungicides added to help fight against the mold and mildew returning to your fence.

Give your backyard new life by having us treat your fence today!
